## DANIELLA LEVINE CAVA MAYOR MIAMI-DADE COLINTY

August 22, 2023

#### Dear friends,

As Mayor of Miami-Dade County and on behalf our nearly 3 million residents, it is my pleasure to welcome you to the 12<sup>th</sup> edition of The Water Expo and the 5<sup>th</sup> edition of The Energy Expo! We proudly welcome more than 150 exhibitors, 80 educational sessions, and 2,000 delegates from 40 countries across Latin America, the Caribbean, and the U.S to advance water and energy solutions.

As mayor of a county nestled between two watery national parks, Biscayne Bay and the Everglades, I am deeply passionate about the protection of our clean water. The Everglades is a precious World Heritage Site and the main source of drinking water for our community, and Biscayne Bay is a hub for water recreation, home to many species of plants and animals, and the blue heart of our community. Miami-Dade County continues to make multi-billion-dollar investments to improve our water and sewer infrastructure so that future generations can enjoy high-quality drinking water and reliable wastewater disposal services, while protecting our natural resources.

My administration launched an aggressive Climate Action Strategy that sets a goal to cut carbon emissions by 50% by 2030. We also joined the International "Race to Zero" to reach net-zero by 2050. Our County has committed to achieving 30% renewable energy within the next 8 years and we are aggressively going solar on county property. Innovation in green technology is happening every day in Miami-Dade – and we look forward to helping environmentally-minded businesses grow right here in our county.

Since my days as a County Commissioner and now as County Mayor, I have been proud to support the Water and Energy Expos – from participating as a panelist to working to advance water conservation and energy innovation from county hall. I wish all organizers, participants, and attendees great success, and I'm looking forward to welcoming you back next year!

Yours in service,

Daniella Levine Cava

Mayor, Miami-Dade County

#### **KEYNOTE & OPENING SESSION**

by Daniel A. Huard, LEED Fellow, WELL Faculty, WELL AP, PMP, LFA, ASHRAE CPMP, GGA, GGP, GPCP, Principal, Humann Building Solutions, LLC.

Wednesday, August 23, 2023, 8:00 am MACC Room 1 - Mezzanine

## KEYNOTE: "ARTIFICIAL INTELLIGENCE: IMPACTING OUR LIVES AND INDUSTRIES... ARE YOU READY?"

Join our multi-disciplined presenter to dive into the impacts of Artificial Intelligence. Our presentation from an Energy and Water Expert with significant professional experience will share details, and a variety of information, implications, and applications on the current state of Artificial Intelligence within the Energy and Water priorities for our conference attendees.

#### **SPECIAL SESSION:**

#### DIRECT FINANCING FOR THE FOREIGN CUSTOMER (IMPORTER)"

by Daniel Cardona, Vice President, Florida Export Finance Corp. (FEFC)

Direct Financing Programs for foreign companies in search of products, machinery and equipment manufactured in the United States, through the loan guaranteed by the Export-Import Bank of the United States (Ex-Im Bank) / Programas de Financiamiento Directo para empresas extranjeras en búsqueda de productos, maquinaria y equipo manufacturado en Estados Unidos, a través de préstamos garantizados por el Banco de Exportación e Importación de los Estados Unidos (Ex-Im Bank).

Why Choose Us?

With over a decade of extensive expertise in the Solar and Storage industry, we are dedicated to assisting your company in attaining remarkable success!

Our unwavering commitment lies in providing comprehensive support and leveraging our profound industry knowledge. We have offices and warehouses in Texas and North Carolina, we ship Nationwide daily and frequently to Central America and the Caribbean.

If you have any specific inquiries or require professional guidance regarding solar and storage, please don't hesitate to reach out.

We are here to assist you in every possible way!

#### SPECIAL SOLAR COURSES

presented by: Solar Energy International (SEI)

## **ENGLISH COURSES**

Instructed by: Marshall Brunson, Instructor, Solar Energy International – SEI (CO)

#### AUG. 23, 2023 • 2 - 5PM "Solar Plus Storage Details Uncovered"

The course is ideal for anyone looking to join the solar industry or that is already working in the industry and is lookinto work with PV systems with energy storage.

(3 NABCEP Credits)

## AUG. 24, 2023 • 9AM – 12PM "PV System Operations and Maintenance (O&M)"

The course covers all sizes of grid-direct PV systems including residential, commercial, and large-scale systems, but will not cover battery maintenance or medium voltage-specific O&M tasks.

(3 NABCEP Credits)

Mr. Brunson dove into the solar industry in 2012 installing residential and commercial PV systems in Florida and Tennessee. After studying at SEI in 2016, he earned his NAB-CEP PVIP certification, then went to work in the large-scale PV sector supporting central inverters at Power Electronics. Since 2018 Mr. Brunson has been dedicated to training and education in the solar field and is thrilled to be a part of the SEI team.

## CURSOS EN ESPAÑOL

Instruido por: Carlos Oreamuno, Instructor, Solar Energy International – SEI (CO)

#### AGO. 23, 2023 • 2 - 5PM "Energía Solar + Almacenamiento: Detalles de la Tecnología"

El curso va dedicado a cualquier persona que trabaje o quiera trabajar en la industria fotovoltaica con almacenamiento de energía.

(3 Créditos NABCEP)

#### AGO. 24, 2023 • 9AM - 12PM "Operación y Mantenimiento de Sistemas Fotovoltaicos (FV)"

El curso abarca todos los tamaños de sistemas FV interactivos directos, incluidos los sistemas residenciales, comerciales y de gran escala, pero no cubrirá el mantenimiento de baterías ni las tareas de O&M específicas de media tensión.

(3 Créditos NABCEP)

Sr. Oreamuno es Ingeniero Electromecánico con 25 años de experiencia en proyectos de energías renovables, destacando sistemas aislados. Actualmente se desempeña en diseño, instalación, inspección, puesta en marcha y mantenimiento de soluciones de energía fotovoltaica, tanto en sistemas integrados como aislados a la red eléctrica. Sr. Oreamuno es miembro activo de la Comisión de Energías Renovables del Colegio de Ingenieros Electricistas, Mecánicos e Industriales de Costa Rica. Ha sido expositor y profesor universitario en materias afines a Energías Renovables, cuenta con la certificación NABCEP y con una Maestría en Energías Renovables.
