INTRODUCTION TO O&M FOR LARGE-SCALE PV SYSTEMS

NEW COURSE! Get job-ready for the utility-scale solar market with SEI's online training. Whether you're launching your career or scaling your team, this course delivers the skills needed for safe, effective operations—no in-house training required.

Improve Safety

Reduce risks with proper solar site training.

Save Time & Cost

Start online today! ideal for new careers and growing teams.

Increase Efficiency

Boosts skills and knowledge for better job performance.

KEYNOTE & OPENING SESSION

Wednesday, August 20th, 2025, 8:00 am, Room 303A-B

KEYNOTE:

“WORKER AND PUBLIC SAFETY – MAKING IT A CORE VALUE IN YOUR INDUSTRY, NOT A PROGRAM.”

by **David Biderman** President,
Biderman Consulting, LLC (VA)

Worker and public safety associated with energy, water, and waste operations need to be a core value for all employers. Reducing accidents and injuries helps improve your company's image, recruit and retain employees, and your bottom line. Eliminating these incidents takes continuous focus, management leadership, and changing unsafe behaviors by both employees and the public. A national safety expert will discuss how to make safety training memorable and accomplish these goals. Attendees will receive actionable tools they can use to reduce safety hazards and incidents at your workplace.

David Biderman has been a leader in the solid waste and recycling industry for more than 35 years. David is the President of Biderman Consulting, LLC, a boutique firm focusing on sustainability, safety, and advocacy. Biderman's clients include US and foreign companies (Europe, Latin America, Asia) in the solid waste industry or who sell goods/services to the North American solid waste industry, and local governments. David was the Executive Director of the Solid Waste Association of North America (SWANA) from 2015-2023, and helped substantially increase its membership, visibility, and leadership position in the U.S. concerning waste and recycling issues. He personally led projects in Belize and Colombia and spoke at events in Argentina and Brazil. He served on the U.S. Department of Commerce's Environmental Technologies Trade Advisory Committee (ETTAC) and represented the U.S. at International Solid Waste Association events. David joined SWANA in April 2015 after 18 years with the National Waste & Recycling Association, where he was General Counsel, Vice President of Government Affairs and Safety Director. He is a frequent expert witness, has testified before numerous federal, state, and local agencies and councils, is quoted frequently by national publications, and has spoken about environmental issues, policies, and trends at numerous domestic and international environmental conferences, including events in the United States, Canada, Asia, Latin America, and Europe.

SPECIAL ACCREDITED COURSES

presented by: Solar Energy International (SEI)

ENGLISH COURSES

Instructed by:
Marshall Brunson,
Instructor, Solar Energy
International – SEI (CO)

AUG. 20TH, 2025 • 1 – 4PM

“2023 National Electrical Code (Nec®) Updates: Solar and Storage Systems.”

This course is an in-depth look at changes and updates to the 2023 NEC that reflect how PV, other generation sources, storage, and management and control systems interact in new and exciting ways.

(3 NABCEP Credits)
SEI Certificate of Participation included

AUG. 21ST, 2025 • 8 – 11AM

“Intro To Large Scale O&M.”

This course is targeted toward entry-level technicians and will introduce concepts and strategies used in day-to-day O&M of large-scale PV systems.

(3 NABCEP Credits)
SEI Certificate of Participation included

Mr. Brunson dove into the solar industry in 2012 installing residential and commercial PV systems in Florida and Tennessee. After studying at SEI in 2016, he earned his NABCEP PVIP certification, then went to work in the large-scale PV sector supporting central inverters at Power Electronics. Since 2018 Mr. Brunson has been dedicated to training and education in the solar field and is thrilled to be a part of the SEI team.

CURSOS EN ESPAÑOL

Instruido por:
Carlos Oreamuno,
Instructor, Solar Energy
International – SEI (CO)

AGO. 20TH, 2025 • 1 – 4PM

“Actualizaciones 2023 Del Código Eléctrico Nacional (Nec®): Sistemas Solares y de Almacenamiento.”

Este curso es una mirada a profundidad de los cambios y actualizaciones del NEC 2023 que reflejan cómo la FV, otras fuentes de generación, almacenamiento y sistemas de gestión y control interactúan de formas nuevas y emocionantes.

(3 Créditos NABCEP)
Incluye Certificado de Participación SEI

AGO. 21ST, 2025 • 8 – 11AM

“Introducción A O&M De Sistemas FV a Gran Escala.”

Este curso está dirigido a técnicos de nivel inicial e introducirá conceptos y estrategias utilizadas en el día a día de la O&M de sistemas FV a gran escala.

(3 Créditos NABCEP)
Incluye Certificado de Participación SEI

Sr. Oreamuno es Ingeniero Electromecánico con 25 años de experiencia en proyectos de energías renovables, destacando sistemas aislados. Actualmente se desempeña en diseño, instalación, inspección, puesta en marcha y mantenimiento de soluciones de energía fotovoltaica, tanto en sistemas integrados como aislados a la red eléctrica. Sr. Oreamuno es miembro activo de la Comisión de Energías Renovables del Colegio de Ingenieros Electricistas, Mecánicos e Industriales de Costa Rica. Ha sido expositor y profesor universitario en materias afines a Energías Renovables, cuenta con la certificación NABCEP y con una Maestría en Energías Renovables.

iWallet

A NEW WAY TO TAKE PAYMENTS THAT WILL
SAVE YOU A LOT OF TIME AND MONEY

1

Mobile Check Deposits

Say goodbye to bad checks, unnecessary bank trips, lost or stolen payments, and waiting for checks in the mail. No need to bring checks to the office anymore!

2

Tap to Pay

Accept contactless credit and debit card payments in the field with an iPhone or Android phone.

5

Integration

iWallet has soft integration with ANY CRMs, including popular platforms like Housecall Pro, ServiceTitan, Workiz, QuickBooks, and many others.

Discover Savings

Enjoy a flat-rate processing fee with no setup, cancellation, or PCI compliance fees. Save up on fees—watch the difference add up!

Unlock 5-Star Reviews

New way to get online customer reviews during the payment flow which converts better than traditional follow up.
